Learning Objectives:

- To develop knowledge of Selective/Situational Mutism (SM) and speech confidence difficulties.
- To be able to differentiate between SM, shyness and other communication differences and difficulties.
- To have knowledge of suitable intervention options for primary school aged children.
- To have knowledge of strategies and resources that can be used to support young children with communication confidence difficulties.

Webinar Presented by Danielle Cottam Speech Pathologist

Course Description

This 3.5 hour webinar is suitable for Speech Pathologists, Education Staff and others working with children with SM. It will give you the background knowledge and intervention strategies to achieve positive outcomes with these young children. The course is presented in a practical step-by-step format and includes real life scenarios, recommended readings and resources .
